# Сертификат

Настоящим подтверждается, что доктор *Тамар Каладзе*  
принял(а) участие в мастер-курсе: «*Эволюция методик прямой  
композитной реставрации*».

## Препарирование и адгезивная подготовка полостей:

- \* От профилактического расширения к минимально инвазивным методикам препарирования полостей - что считать оптимальным и достаточным; пределы разумного сохранения тканей?
- \* От Гибридизации к Супердентину - что определяет отдаленный результат реставрации на фоне старения адгезивного соединения? Протоколы бондинга. Технические ошибки, влияющие на краевое прилегание.

## Восстановление объемных дефектов твердых тканей жевательных зубов:

- \* От работы встречными треугольными порциями композита - к горизонтальной укладке и bulk-моделированию монопорцией. Контрольные точки и техника «анатомической навигации» по методу д-ра Ноборо Такахашаи.

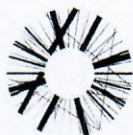

## От формы - к оптике в эстетике фронтальной реставрации:

- \* Пошаговая навигация построения первичной и вторичной анатомии фронтальных зубов. Возможности 3D-оптики ESTELITE ASTERIA. Индивидуализация реставраций композитными красителями ESTELITE COLOR.
