About Me

During my working experience as a TA in Kutaisi International University, I have assisted following classes: Fundamentals of Programming, Functional Programming and Verification, Fundamentals of Data Bases, Introduction to Programming and Data Bases. For these classes I used to work with: Java, OCaml, R, MySQL. Teaching language: English. In parallel I was enrolled in several projects (as a TA of KIU, I gave some classes of web-programming to the school pupils at Chiatura. I was also enrolled in ICT Industry-Led Skills Development Project and in some others as well). Apart from that, I also have more or less experience with C++, HTML, CSS, PHP.

Personal skills: Sociable, responsible, punctual, purposeful. I always do my best to perform my duties honestly. The motto of my life: Enjoy a new day with new challenges!
